

The Stroke * # 1*

In a journey it is not the destination that counts but always the encounters at the bends of the paths travelled.

Dear reader,

Welcome to the first edition of "The Stroke", the newsletter for members, subscribers, customers, and friends of SAMANAH Golf. Thank you for taking the time to read these few lines. The new season has just begun, and we have prepared new features and special events for you to make your "customer experience" at "SAMANAH Golf by Nicklaus" as pleasant as possible. Enjoy!

The entire SAMANAH Golf team

SAMANAH GET TOGETHERS

In a totally redecorated club house, we propose:

- Monthly themed dinners (mandatory reservation), with fixed menu at low prices
- Presentation of new members, residents, and friends of SAMANAH,
- Cultural events
- Live Band or DJ Set
- Season program and online reservations available at the club house and on <https://www.mysamanah.com/rencontres>

The Marrakesh Golf League LGMA

SAMANAH Golf innovates in partnership with the association "Mon Tee RAK" by launching the first edition of the Marrakesh Golf League: 1st round @SAMANAH on Saturday October 1st, 2022

- Championship open to all FRMG licensees from Marrakech clubs. Rankings by M/F category: Senior-2, Senior, etc.
- Gross and Net rankings. Three parallel championships: Individual, Team of 4 and Club.
- Championship in 9 rounds of 18 holes. @SAMANAH: 1st round in Oct-2022 and last round in June 2023.
- Only the 6 best scores will be retained for the ranking in the league. The 9 rounds will be held @SAMANAH and on the partner courses.
- The LGMA program and rules are available at the club house and <https://www.mysamanah.com/lgma>

The SAMANAH LEAGUE – CLUB CHAMPIONSHIP – ASSGC -

Innovation of our sports association

The club championship will take place throughout the season

It is reserved to club members

The culmination of the season will see the top 8 of the championship compete in MATCH-PLAY to decide the CLUB champions of the season

NB: At the end of its 2022 general assembly, the SAMANAH golfers' association will announce the new office which will be elected by its members and the composition of the sports committee which will oversee the organisation of the League.

More information on <https://www.mysamanah.com/liguesamanah>

TEACHING & ACADEMY

Within a practice renovated for the occasion, Jean-Claude LAURENCEAU of Marrakech Training Camp is a PRO PGA who has already officiated at SAMANAH and who is known and appreciated by members, customers, and PRO teachers. JC returns as an independent Head PRO to ensure the services of the SAMANAH Academy and the reception of his PRO colleagues in the new dedicated "PRO LOUNGE" with free WIFI.

JC regularly offers initiations and free group lessons around "LA PAUSE", the new Practice and Academy snack bar. <https://en.mysamanah.com/academy>

Finally, JC will coordinate the numerous PRO-AMs which will be organised by SAMANAH with major players of the European TOUR and for which the participation of club members will be free.

ON THE COURSE

Abdelmajid, Abdelhaq and the whole "Green Keeping" team, gardeners, fountain workers and technicians have all worked hard in recent months to offer you the best possible golf course and the most beautiful training areas in Marrakech. Please respect the ropes and signs on the course. You will note the maintenance of the benches, garbage cans, ball washers and panels at the start of each hole. Despite the decision not to sow this summer and the extreme water shortage that the kingdom experienced in the summer of 2022, the team was able to preserve the course which was particularly tested. The driving range has been sown and a new access to the approach areas has been created behind the "PRO Lounge".

One of the biggest challenges in the new season is to become "environmentally responsible" by reducing the amount of water, chemical and fertiliser consumption, as well as reducing the risk of grass diseases.

Why are lake levels lowered? In hot weather, it is necessary to aerate the lakes of SAMANAH Golf to fight against the formation of algae. Air diffusers installed at the bottom of the ponds, also called lakebed aerators, maximise the aeration of the body of water because it starts at the bottom and goes up. It is important to lower the water level during these operations. The diffused air rises to the surface, the oxygen is dissolved in the body of water. Diffusion aerators are also economical to operate because they use less energy.

MULLIGAN BAR – RESTAURANT

In a redecorated club house, our chef YASSINE and the head waiter SIMO as well as "Pedro", Fatim-Zahra and the whole club house team are delighted to be able to welcome you at the dawn of the new season to present the new formulas as well as new meals and drinks available here <https://en.mysamanah.com/restaurantmulligan>

For those in a hurry, Yassine and SIMO offer lunch boxes, sandwiches, snacks, fruit, and drinks to take away or have delivered on the course.

SAMANAH residents can now have all meals delivered: from breakfast, lunches, aperitifs to dinners. Order in person, by phone, by email before 5 p.m. for delivery the same evening.

In high season, Yassine and SIMO also launch "Happy Hour" every other Thursday around the putting green in front of the club house. On WE's they will propose themed buffets, BBQs, BRUNCH and are available for any other F&B requirement.

Finally, Amine our photographer is at your disposal to immortalise your memories on our golf course and for any personalised service.

PROSHOP

PROSHOP

Following a renegotiation with our partner, your SAMANAH Proshop will finally become multi-brand, you will find all your favourite brands of golf textiles and accessories. Quality displays and our dedicated sales team will be at your service during Golf opening hours.

DID YOU KNOW?

According to the Moroccan association of animal photographers, the "SAMANAH Golf by Nicklaus" is a natural refuge for many rare bird species (some specimens in photos on the right). We will soon invite for an exhibition Mrs. Halima Bensadik, President of the first association in Morocco, which brings together wildlife photographers and whose objective is to enhance our natural heritage (Fauna and flora, and natural environments) and contribute to its preservation. Keep an eye out next time, maybe you'll spot one of these rare species. They often take refuge near lakes.
